The Tilman Medal, in memory of Bill Tilman, is awarded from time to time by the committee of the Royal Cruising Club for an outstanding voyage in Arctic or Antarctic waters or other remote places in high latitudes. Tim and I are very honoured to have been jointly presented with such a coveted award. The voyage was only made possible by the joint efforts of our fantastic crews and all of those who assisted us with technical advice, encouragement and hospitality during training.

Well done everyone and thank you!
