

Sumara of Weymouth Idiot Sheet Number 9

Garmin Inreach and SAR Insurance

- Admin for the SAR insurance can be found at www.my-geos.com
- My IMEI Number is 300434037315360.
- The device serial number is 5HT292285
- The SAR Insurance covers Ray and Alasdair. The login codes are S..25 and GIRB.!
- Ensure the device is fully charged from a USB socket
- Power up by pressing the power button on the top
- It can be connected by Bluetooth to my mobile by selecting the “Earthmate” app.
 - a. Test that it is working by selecting Main Menu/Utilities/Test Service/OK.
 - b. The device will send a message and you should receive a reply.
- The aerial needs to view a clear sky. Clip the device to the top of your rucksack.
- You can now send a preset message. Messages can be set up at www.explore.garmin.com. Go to Main Menu select Send Preset, choose a message and select Send. Messages will be things like: Just leaving yacht. Reached destination. Arrived safely back at yacht. Etc
- To issue an SOS, lift the protective flap and hold the SOS button. Wait for the SOS Countdown. Reply to the confirmation message from the emergency response team to let them know you can communicate during the rescue. The device will send updated positions if you are still moving (running away!). If you need to cancel the rescue, hold in the SOS button, select YES and the rescue will be cancelled
- To operate Tracking so others can follow your progress, select Start Tracking.
- The frequency can be adjusted. Each point costs a few pence but that will add up.
- More information can be found in the owners manual www.garmin.com/manuals/inreachmini
